## ABOUT ME

I'm Carolina Caracciolo, I am 17 years old and I'm studying applied sciences at ITIS Feltrinelli. I have always been passionate about computer science and its sectors.

## FORMATION

**Studying at ITIS Feltrinelli (Scienze Applicate)**

Milan, 2021-2026

## EXPERIENCES

**TechCamp@Polimi (Cybersecurity & Hacking)**

10-14 June 2024

In this course I was able to learn a little Introduction to Internet technologies, reading and understanding applications written by others (reverse engineering), some vulnerabilities of Web services with the software burpsuite and an introduction to cryptography

**Coding Week**

21-25 October 2024

In this course I learned the basics of HTML, CSS and JavaScript to create personalized and interactive pages. I used these languages and GPT APIs to create a weather app that generates images with AI, a travel planner that invents a new itinerary for your trips and an intelligent story maker, capable of imagining original scenarios based on your choices.
